Final-year B.Tech CSE (AI & ML) student skilled in Python, EDA, and Machine Learning, with experience building end-to-end data-driven applications using Scikit-learn, Pandas, and LLM APIs. Built a RESTful API with FastAPI and Streamlit dashboards, applying statistical analysis and model evaluation across 2+ deployed projects.

EDUCATION

Vellore Institute of Technology, Bhopal

Bachelor of Technology in Computer Science and Engineering (AI & ML) – CGPA: 8.98

2023 – Present

TECHNICAL SKILLS

Programming Languages: Python, SQL

Data Science: Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Data Visualization, Statistical Analysis

Machine Learning: Machine Learning, Deep Learning, Generative AI, Supervised Learning, Classification, Model Evaluation, Feature Engineering

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Matplotlib, Plotly, Streamlit, FastAPI, Gemini API

Developer Tools: Git, GitHub, Docker, Google Collab, VS Code

Database: MySQL, MongoDB

PROJECTS

AI Code Review Assistant | *Python, FastAPI, Streamlit, Docker, Gemini AI, PyTest, Pylint, Bandit, Radon, ReportLab*

- **Purpose:** Engineered an AI-powered Code Review Assistant to automate manual Python code review, reducing time spent on quality, security, and complexity checks.
- **Action:** Developed a FastAPI REST API integrated with Streamlit, combined Gemini AI with static analysis tools (Pylint, Bandit, Radon, PyTest), and containerized the app using Docker for portable deployment.
- **Result:** Delivered AI-generated reviews, quality scores, and PDF reports, cutting manual review effort by an estimated 30–40% with reproducible Docker deployment.
- **GitHub:** [Repository](#) | **Live Demo:** [View App](#)

Customer Churn Prediction | *Python, Pandas, NumPy, Scikit-learn, Random Forest, Streamlit*

- **Purpose:** Designed an end-to-end Customer Churn Prediction system to identify at-risk customers in advance and support retention strategies.
- **Action:** Performed data preprocessing, EDA, and feature engineering, then trained and tuned a Random Forest classifier using Scikit-learn on customer data.
- **Result:** Achieved 87% prediction accuracy and deployed an interactive Streamlit app for real-time churn prediction and insights.
- **GitHub:** [Repository](#) | **Live Demo:** [View App](#)

AI Resume Analyzer | *Python, Streamlit, Gemini AI, Plotly, ReportLab*

- **Purpose:** Developed an AI Resume Analyzer to help candidates evaluate their resumes against job descriptions and identify skill gaps.
- **Action:** Architected an AI pipeline using the Gemini API for ATS score prediction and skill-gap analysis, with Plotly dashboards and PDF reports via ReportLab.
- **Result:** Delivered real-time ATS scoring, resume suggestions, and AI-generated interview questions, deployed on Streamlit Cloud.
- **GitHub:** [Repository](#) | **Live Demo:** [View App](#)
